Saskatchewan Libraries Conference 2014

On behalf of the 2014 Saskatchewan Libraries Conference Planning Committee I would like to welcome you to the 2014 Saskatchewan Libraries Conference, Learning for Life!

I'm sure that you will agree that there is something here for each of you, regardless of your library type.

The 2014 Mary Donaldson Lecturer, Barbara Arrowsmith-Young promises to be an inspiring and informative speaker as she recounts her struggle with her own learning disabilities and how her perserverance led to new discoveries about the brain.
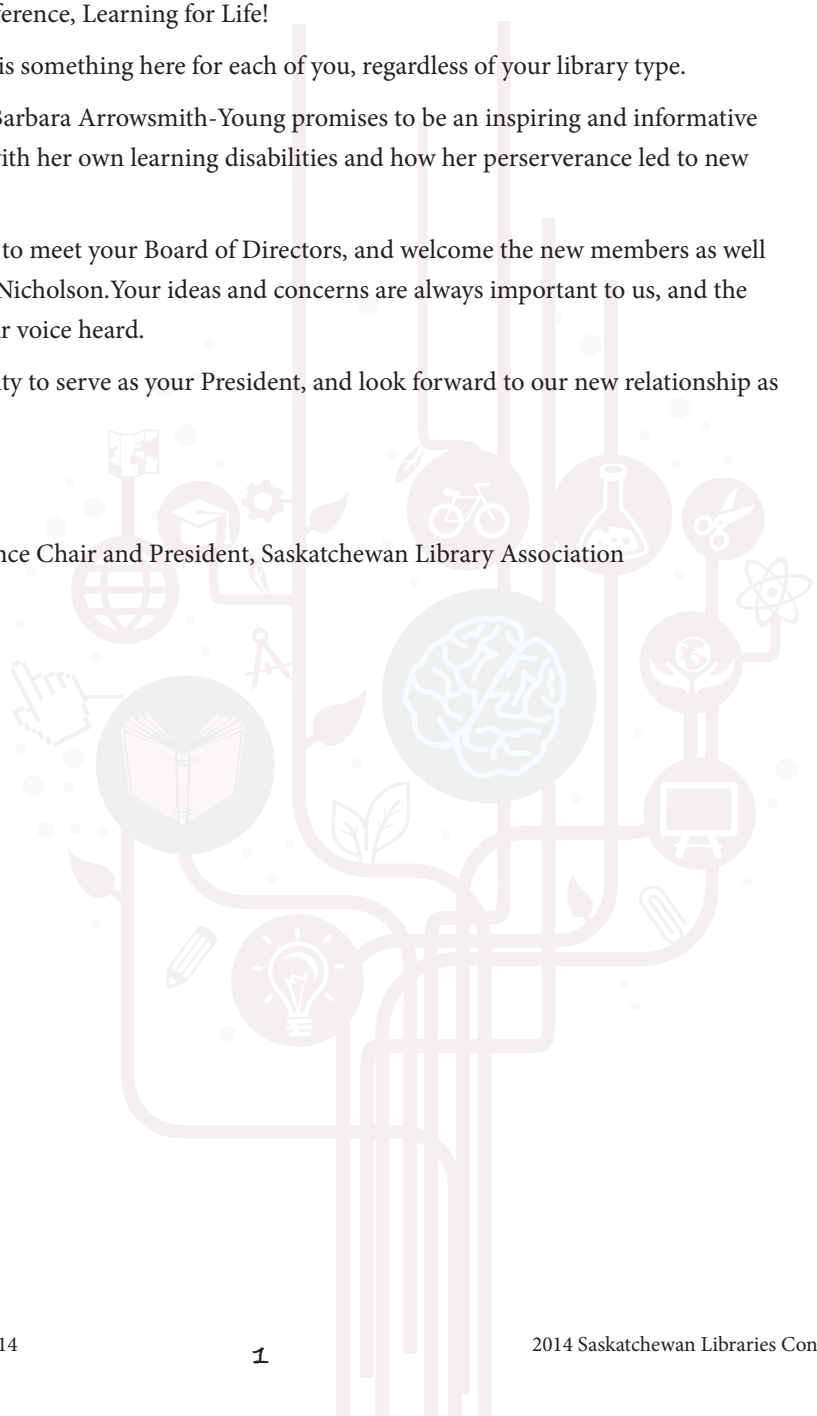

I hope that you will also take the time to meet your Board of Directors, and welcome the new members as well as SLA's new Executive Director Judy Nicholson. Your ideas and concerns are always important to us, and the conference is a great place to have your voice heard.

I'm grateful to have had the opportunity to serve as your President, and look forward to our new relationship as colleagues.

Sincerely

Robert G. Thomas

T1 Multitype Database Licensing Program Training Workshop -Gale Cengage Learning (9:00 a.m. - 10:30 a.m.)

Presenter: LuAnn Harrison
Location: SIAST Palliser Campus

The Multitype Database Licensing Program (MDLP) is a province-wide program in which libraries in Saskatchewan work together to jointly purchase access to online information resources for all Saskatchewan residents. Ongoing training as well as additional exposure to the MDLP resources for library staff is important to participating libraries and their patrons. Provincial Library and Literacy Office has invited representatives from Gale, Britannica, EBSCO and ProQuest to provide a hands-on, preconference training session for their products in the MDLP Core Collection. This is a good opportunity for library staff to refresh their knowledge and to learn about new features. Many databases in the MDLP Core have been migrated to a new platform or interface recently. Vendors have been asked to cover a range of relevant features—from basic to advanced—and to highlight recent changes to their products.

T6 Mary Donaldson Memorial Keynote Lecture
(7:00 p.m.– 8:30 p.m.)

Presenter: Barbara Arrowsmith-Young
Location: Moose Jaw Public Library Theatre

Arrowsmith-Young's lecture covers the personal and the universal. The personal is Arrowsmith-Young's journey of discovery driven by her hunt for a solution to her own debilitating learning disorders leading to the integration of two lines of neuroscience research. The universal is that we all have a brain and by furthering our knowledge of how our brain shapes us through mediating our understanding of the world we can gain insight into our functioning and that of others. And most promising, that through our growing understanding of neuroplasticity, we now have the knowledge to develop treatments to shape our brains. It is a journey of understanding and transformation. Copies of Barbara's book will be available for purchase and autographing.
