5 Purposes for which we use your Personal Data

- 5.1 When Arrowsmith collects your Personal Data, Arrowsmith may use or disclose it for the following purposes:
- (a) **To establish whether you are an appropriate candidate for the Program** ► the Teacher at the Program Site may use the Student's Enrolment Data to assess the cognitive challenges faced by

him/her, attempt to isolate their cause and to understand the results that the Student (and/or their parent/guardian) would like to get from participation in the Arrowsmith Program. Arrowsmith may work and consult with the Program Site as part of this process;

- (b) **To assess requirements and select or tailor a program specific to the Student ►** Arrowsmith may use the Assessment Data to produce an initial proposed learning program for the Student. This will be discussed by the Teacher at the Program Site with the Student (and/or the Student's parent/guardian). Arrowsmith may work and consult with the Program Site as part of this process;
- (c) **To report on progress during the course of completing the Program ►** as the Student works through his/her individual Program, reports can be raised by their Teacher at the Program Site and shared with the Student. Sometimes Teachers at the Program Site will share the report with parents/guardians as well. Arrowsmith may work and consult with the Program Site as part of this process;
- (d) **To transfer records and progress reports between academic institutions ►** to allow Students to continue in the Arrowsmith Program at a different institution. Arrowsmith will provide Students with an identifier number, which the Student can provide to the new institution. This will allow that institution to access the Student's records and understand progress;
- (e) **Research and development ►** Arrowsmith will use Personal Data relating to Students to assist us in understanding and improving the effectiveness of the Students' Programs and the Arrowsmith Program as a whole, including the Programs' efficacy in remediating learning difficulties in relation to specific conditions, diagnoses, or age groups. This will assist us in helping a wider range of individuals in as effective and efficient a way as possible, as we find out more about what types of cognitive difficulties respond to different features of the Program and analyse trends.

Where we use Personal Data for research purposes, we store it in an entirely separate database from the full database maintained by the Program Site at which the Student attends. The Program Site cannot access the research database, and our researchers cannot access the full database. The research data set will be permanently anonymised where we can achieve our research purposes using anonymised data. Otherwise, we will pseudonymise the Personal Data used for research purposes, meaning that the Students' names and contact details will not be included within the research database. Instead, an identifier code will be used to link the Student's Assessment Data with his/her Enrolment Data, to enable us to conduct research. We do not make any decisions about individual Students based on the outcome of this research.

We sometimes share permanently anonymised research data sets with third-party researchers;

- (f) **To comply with legal or regulatory requirements, or as otherwise permitted by law ►** Arrowsmith may process your Personal Data to comply with its regulatory requirements or dialogue with its regulators or defend or prosecute claims as applicable, which may include disclosing your Personal Data to third parties, the court service and/or regulators or law enforcement agencies in connection with enquiries, proceedings or investigations by such parties anywhere in the world;
